Google

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at http://books.google.com/

REPORT

OF THE

STATE TAX COMMISSIONER

FOR THE YEAR 1897.

STATE OF MARYLAND,

TREASURY DEPARTMENT,

Office of the State Tax Commissioner,

ANNAPOLIS, *January* 18, 1898.

To the General Assembly of Maryland:

This is the tenth of the biennial reports submitted by my predecessors and myself, and the second by myself, to the General Assembly at its recurring sessions in Annapolis. The tables accompanying these reports contain much valuable statistical information in regard to the capital stock, assets and gross receipts of corporations, which have been made the subjects of taxation under the primary jurisdiction of this office since its creation by the Legislature of 1878.

The aggregate amount of State tax on corporations in 1897, as shown by table A, is		$410,997 39
This amount has been obtained from the following sources:		
Tax on real estate, owned by corporations	62,515 39	
Tax on shares of stock in corporations	89,296 51	

Tax on deposits in savings institutions.....	32,057 47	
Tax on gross receipts of corporations classified in tables K, L, M, N and O..	219,040 65	
Bonus tax on new corporations paid during the fiscal year ended September 30, 1897	5,387 16	
Tax on distilled spirits under Act of 1892, Chapter 704.....	2,700 21	$410,997 39

A comparison of this result in 1897 with the aggregate amount of the State Tax, assessed and levied upon corporations in 1896, shows an increase and gain last year over the previous year of $101,451.16. This increase and gain is due mainly to the increased franchise tax, imposed by Section 146, Chapter 120, Act of 1896, upon the annual gross receipts of corporations named in said Act. The corporations named and included in said Act are as follows:

Railroad companies, whose roads are worked by steam power, incorporated by or under the authority of this State or any other State, Territory, District of Columbia or foreign country, and doing business in this State; upon whose gross receipts the tax is eight-tenths of one per cent. on the first one thousand dollars per mile, and one and one-half per cent. above one thousand dollars per mile, and up to two thousand dollars per mile, and when the earnings exceed two thousand dollars per mile, two per cent. on all earnings above that sum. Telegraph or cable, express or transportation, telephone, parlor car, sleeping car, safe deposit, trust, guarantee and fidelity companies, incorporated under any general or special law of this State, and doing business therein; upon

the gross receipts of which the tax is two per centum.

Oil pipe line companies, and title insurance companies incorporated under any general or special law of this State and doing business therein; upon the gross receipts of which the tax is one per centum.

Electric light companies incorporated under any general or special law of this State, and doing business therein; upon the gross receipts of which the tax is three-quarters of one per cent. Electric construction companies and gas companies incorporated under any general or special law of this State, and doing business therein, and guano, phosphate or fertilizer companies incorporated by or under the laws of any other State, Territory, District of Columbia, or foreign country, and doing business in this State; upon the gross receipts of which the tax is one and one-half per centum.

If any of these companies extend beyond the limits of this State the mode of apportionment is prescribed by said Section of said Act. The increase of this tax in the year 1897, under said Act, over the same tax in the year 1896, under prior Acts, is $101,532.01, and $80.85 more than the increase on the aggregate amount of the State tax on corporations in the year 1897.

The State tax in 1897 upon real estate of corporations under the new assessment is.	$62,515	39
The same tax in 1896 under the old assessment was	68,160	56
Decrease under the new assessment of	5,645	17
The State tax in 1897 upon shares of stock in corporations is	$89,296	51
The same tax in 1896 was	84,019	03
An increase in 1897 of	5,277	48

The State tax in 1897 upon deposits in savings institutions is	$32,057 47
The same tax in 1896 was	30,672 86
An increase in 1897 of	$ 1,384 61
The bonus tax in 1897 on new corporations is	$ 5,387 16
The same tax in 1896 was	6,439 80
A decrease in 1897 of	1,052 64
Tax on distilled spirits in 1897 is	2,700 21
Same tax in 1896 was	2,745 37
A decrease in 1897 of	$ 45 16

Section 171, Chapter 120, Act of 1896, directed the State Tax Commissioner forthwith to prepare printed instructions and forms for the guidance and direction of the Assessors, Boards of Control and Review, and their clerks, appointed under the provisions of said Act, including and specifying a full and complete form or schedule of all kinds of real and personal property subject to taxation under the laws of this State. I accordingly forthwith prepared and issued to these officers, and forwarded to the Appeal Tax Court of Baltimore City and to the County Commissioners for the several counties in the State for delivery, such instructions and forms, including a memorandum of personal property liable to assessment and taxation, and a list of property exempted from taxation under Chapter 120, Act of 1896, prepared by myself and embracing a blank return for personal property with a schedule thereof printed thereon, and some additional instructions, prepared by Attorney-General Clabaugh, and my personal counsel, Bernard Carter, Esq. The schedule, printed

upon the blank form for the return of personal property, classified said property as follows:

(*a*) Bonds, certificates of indebtedness, or evidence of debt in whatever form made or issued by any public or private corporation incorporated by the State of Maryland, or any other State, territory, district or foreign country, or issued by any State (except the State of Maryland), Territory, district or foreign country.

(*b*) Shares or interest in any joint stock company, and shares of stock in every corporation incorporated under the laws of Maryland, (except railroad companies worked by steam), and shares in all National Banks located in Maryland.

(*c*) Shares of stock in any bank other than a National Bank, and in any company or corporation incorporated by, or located in, and doing business in any State (other than Maryland), the District of Columbia, any territory or foreign country.

(*d*) All investments in private securities of every kind and description; (this is not to include, however, such investments in mortgages on property in Maryland, the taxation of such investments being otherwise provided for).

(*e*) All interests, shares or proportions in all ships or other vessels, whether such ships or vessels be in or out of port.

(*f*) The fair average value of the stock of goods, &c., in the commercial business carried on by you or your firm during the past year.

(*g*) Horses, cattle, all kinds of live stock, vehicles of every kind, farming implements, household furniture, including library, pictures, etc.

(*h*) Machinery, implements of trade or business, including store and office furniture.

(*i*) Diamonds and other costly jewelry not habitually worn on the person.

(*j*) All other personal property (not above specified) of every kind, nature and description within the State of Maryland, designating what part of the property you claim to be exempt from assessment.

(*k*) Property claimed to be exempt.

These instructions and forms, memorandum and schedule, were very full and specific in their details, as they were required to be, in all particulars, in conformity with the provisions of said Act.

Section 190, Chapter 120, Act of 1896, imposed upon the Appeal Tax Court of Baltimore City and the County Commissioners of the several counties of the State, the duty to prepare condensed statements, ex-

hibiting under appropriate heads, the amounts of the valuation of property in the city of Baltimore, and in their respective counties, and to deliver said statement to the State Tax Commissioner; and upon the State Tax Commissioner the duty to collate the statements, so returned to him, under appropriate heads, and to make report thereof to the General Assembly at its next session, to the end, that the said General Assembly shall be fully informed as to the amount of assessable property in the city of Baltimore and in each county of the State.

In Table D is set forth and submitted to this General Assembly such information as I have been able to obtain under said Section 190. This Table was prepared and a copy of it submitted, in a blank form, to the Appeal Tax Court of Baltimore City, and to the County Commissioners in each county of the State, with the view of obtaining among the other items therein designated, a classification of the personal property in the State, valued and assessed under the assessment laws of 1896, in conformity with the above schedule, printed for, and furnished as a guide to the Assessors.

The blanks in this Table will indicate the localities from which I have been unable to obtain the specific information designated at the head of the columns, in which these blanks occur. The classification reported from Baltimore city is Real, Personal, Securities, Total, which I have collated in the Table as

Total real property and improvements....	$240,798,684
Investments in private securities.....	58,885,726
All personal property not before specified,	67,358,401
Total personal property.....	126,244,127
Total real and personal property.....	367,042,811

The grand total exhibited in Table D is,

Total real and personal property, valued and assessed in the State in 1897, under the assessm't laws of 1896...	650,587,937
Same, under assessment laws prior to those of 1896.....	570,072,217
Increase under assessment laws of 1896...	$ 80,515,720

With reference to the assessment and valuation of the rolling stock of railroad companies for the purpose of city and county taxation, and the report thereof by the Boards of Control and Review to the State Tax Commissioner for apportionment and division under Section 78, Chapter 120, and Section 199, Chapter 140, Acts of 1896, I submit to the General Assembly the apportionments I have been able to make, and such additional information as I have been able to obtain.

The Boards of Control and Review have reported to me, rolling stock, owned by the following railroad companies, and subject to taxation in Maryland, and I have apportioned the same as follows :

For Philadelphia, Wilmington and Baltimore R. R. Co.....		$1,046,147 87
Apportioned to,		
Harford County.....	$550,202 82	
Baltimore "	440,220 89	
Baltimore City.....	55,724 16—	1,046,147 87

From this apportionment there is an appeal by the Company, now pending before the Comptroller and Treasurer.

York, Hanover and Frederick R. R.Co.....		$34,610 00
Apportioned to,		
Frederick County.....	$20,333 37	
Carroll County.....	14,276 63—	34,610 00

Baltimore and Lehigh Railway Co.....		$68,400 00
Apportioned to,		
Baltimore City.....	$ 3,555 52	
Baltimore County.....	27,535 39	
Harford County.....	37,309 09—	68,400 00

The Treasurer of the Western Maryland Railroad Company states that he made return to the Assessors in the 5th Ward of Baltimore City of the rolling stock of the said railroad company amounting to $365,585.00, and claimed an exemption of $166,596.00.

Upon receipt of this information from the Treasurer of the said railroad company, I mailed the following letter to the persons therein named :

"ANNAPOLIS, October 7, 1897.

THEODORE F. WILCOX,
A. H. BRINTON,
FRANK F. BLAKE,
Board of Control and Review, No. 2, Baltimore City.

Gentlemen:

Permit me to call your attention to Section 178 Chapter 120, and Section 199, Chapter 140, Acts of 1896, and especially to that portion of Section 199, which makes it the duty of the several Boards of Control and Review of the several Counties and the City of Baltimore, to report to the State Tax Commissioner the total assessment or valuation of the rolling stock of railroad companies, &c. The Western Maryland Railroad Company informs me that the situs of its railroad and its rolling stock is in the Fifth Ward of your city, which is in your assessment district, and that return of its rolling stock has been made to the assessors of that Ward. Will you be so good as to inform me what occasions the delay in making your return to me, as required by Section 199, and at what time I may expect to receive it?

Very respectfully yours,
THOS. J. KEATING,
State Tax Commissioner."

To this letter the following reply was received:

"BALTIMORE, MD., October 12th, 1897.

HON. THOS. J. KEATING,
State Tax Commissioner,

Dear Sir:

Your communication of 7th inst. was not answered earlier, be-

cause we wanted to consult together about the matter referred to therein. We were under the impression that the situs of the Western Maryland R. R. Co. was not in our district. We thought that it was in the Eighth Ward. Their offices occupy the whole block, and just this afternoon were not able to ascertain whether it was in the Fifth or Eighth Ward. We will look into the matter immediately and advise you further.

Very respectfully,

THEO. F. WILCOX,
A. H. BRINTON,
FRANK T. BLAKE.
Board of Control and Review, No. 2, for Baltimore City.

I have not received any further reply from these gentlemen.

The Auditor of the West Virginia Central and Pittsburg Railway Company states that a return of rolling stock was made to the assessors of the several districts in which the company's line is located in the State of Maryland; that the value of all rolling stock was placed at $587,940.00: that the sum of $475,690.50 was apportioned to West Virginia, and the balance, $112,249.50 to Allegany and Garrett Counties in the State of Maryland.

The Auditor of the Northern Central Railway Company states that no return of rolling stock, owned by said company, was made to the assessors, as counsel advised that it was exempt under the provisions of Chapter 16 of 1880.

The Assistant Treasurer of Cecil County reports that the rolling stock of the Columbia and Port Deposit Railroad Company is assessed at $20,315.00: and as the whole length of that railroad in the State of Maryland is located in Cecil County, the rolling stock is taxable in that County only.

The County Commissioners of Kent County report the assessment of the rolling stock of the Baltimore and Delaware Bay Railroad Company: and as the whole length of that railroad in Maryland is located

in Kent County, its rolling stock is only taxable in that County.

The County Commissioners of Washington County state that they have the report of rolling stock of the Cumberland Valley Railway Company, also of the Norfolk and Western, but as these roads touch Washington County only, they considered it not necessary to send the same to this office.

As the valuation and assessment of the rolling stock of the Baltimore and Ohio Railroad Company had not been reported to this office for apportionment, I addressed the following letter to the Appeal Tax Court of Baltimore City:

"ANNAPOLIS, August 27, 1897.

HON. THOS. H. KING,
HON. JOHN F. LANGHAMER,
HON. T. BURLING HULL,
Appeal Tax Court, Baltimore City, Md.

Gentlemen:

I have received a letter from W. H. Harlan, Esq., counsel for the Board of County Commissioners for Harford County, informing me that he has heard that the B. & O. Railroad Company has refused to make return of its rolling stock for assessment for county and municipal taxation. Please inform me if such is the fact, and, if so, what steps, if any, have been taken by the proper Board of Control and Review to obtain such a return? The P. W. & B. Railroad Company's rolling stock assessment and valuation is the only one as yet reported to me for apportionment from your city.

Very respectfully yours,
THOMAS J. KEATING,
State Tax Commissioner."

I have not received any reply to this letter.

No report has been made to me of the assessment and valuation of the rolling stock of the following railroad companies:

New York, Philadelphia and Norfolk Railroad Co.
Annapolis, Washington and Baltimore Railroad Co.
Baltimore and Annapolis Short Line Railroad Co.

The following railroad companies do not own any rolling stock:

Baltimore and Harrisburg Railway Co.
Baltimore and Cumberland Valley Railway Co.
Potomac Valley Railroad Co.
Union Railroad Company.
Piedmont and Cumberland Railroad Co.
Washington County Railroad Co.
Delaware Railroad Co.
Baltimore and Potomac Railroad Co.
Catonsville Short Line Railroad Co.
Cambridge and Seaford Railroad Co.
Delaware and Chesapeake Railway Co.
Delaware, Maryland and Virginia Railroad Co.
Elkton and Middletown Railroad Co.
Queen Anne's and Kent Railroad Co.

By Table F it will appear that the State tax on corporations that appealed from the State Tax Commissioners to the Appeal Board in 1896 was reduced $6,451.75.

Of the corporations that appealed that year were nineteen of the twenty-eight banks in Baltimore City, and four of the banks in the counties, of which the taxable basis was diminished $2,530,503.03, and upon which the State tax was reduced $4,473.89.

There were no appeals by the banks in the year 1895, and only four in 1897, and these four were by county banks, in three of which the assessment by the State Tax Commissioner was affirmed, and in one of which it was reduced.

By Table E it will appear that the State tax on corporations that appealed from the State Tax Commissioner to the Appeal Board in the year 1897 was reduced $3,110.23. This reduction was largely the

result of the allowance of credits not allowed by the Commissioner.

Sec. 192, Chap. 120, Act of 1896, authorizes, empowers and directs the Appeal Tax Court of Baltimore City, and the Boards of County Commissioners of the several counties, to biennially revise the assessments and valuations in said city and in the respective counties. The first revision is to be made in the present year 1898, and the mode and instrumentalities in and by which the revision is to be made are prescribed. I respectfully invite the attention of the present General Assembly to the matter of this revision for such revised and additional legislation as may be needed to gratify the sentiment of a large majority of the people of this State in favor of such reassessment as will extend the area and equalize the burdens of taxation.

Respectfully submitted,

THOMAS J. KEATING,

STATE TAX COMMISSIONER.

APPENDIX.

TABLE A.

Showing the whole amount of State Tax on Corporations for the year, 1897, and amount of State Tax on Distilled Spirits.

CORPORATIONS.	Amounts.	Aggregates.
State Tax on real property belonging to Banks in Baltimore City	$ 3,985 33	
State Tax on real property belonging to Banks in the Counties	815 51	
State Tax on real property belonging to Insurance Companies in Baltimore City	1,146 43	
State Tax on real property belonging to Savings Institutions	1,769 30	
State Tax on real property belonging to Miscellaneous Corporations	54,798 82	62,515 39
State Tax on net value shares of capital stock of Banks in Baltimore City	24,408 80	
State Tax on net value shares of capital stock of Banks in the Counties	7,511 64	
State Tax on net value shares of Insurance Companies in Baltimore City	2,657 88	
Franchise Tax on deposits of Savings Institutions	32,057 47	
State Tax on net value shares of stock of Miscellaneous Corporations.	57,828 42	124,464 21
State Tax on gross receipts at ¾ of 1 per cent., chap. 120, 1896, see Table K	3,038 63	
State Tax on gross receipts at 1 per cent. chap. 120, 1896, see Table L	1,097 17	
State Tax on gross receipts at 1½ per cent. chap. 120, 1896, see Table M	13,248 05	
State Tax on gross receipts at 2 per cent. chap. 120, 1896, see Table N	24,493 52	
State Tax on gross receipts; chaps. 159 of 1878, and 120 of 1896, see Table O	177,163 28	
Bonus paid by Corporations, chap. 114 of 1894. see Table P	5,387 16	
State Tax on distilled spirits, as certified to the Appeal Tax Court of Baltimore City, and the County Commissioners of the several Counties, under chap. 704, Laws of 1892, see Table G	2,700 21	227,128 02
Total amount of State Tax on Corporations, &c		$414,107 62
Less State Tax on amounts reduced on Appeal. See Table E		3,110 23
Total amount of State Tax on Corporations after reductions mentioned		410,997 39

NOTE.—The shares of stock in the several Banks and other Corporations belonging to the State, Counties and Municipalities mentioned in "Table H," amounting to $208,830.20, being exempt from taxation by law, are not computed in the above table.

TABLE B.

Showing in detail the Aggregate Value of the Shares of Capital Stock of each Corporation, as assessed by the State Tax Commissioner for the year 1897, *the assessed value of its real property, under Chapter* 120, *Sec.* 141, *Act of* 1896; *the amount of credits allowed for tax-paying investments of part of its Capital, under Article* 81, *Sec.* 142, *Code of Public General Laws; the amount of credits allowed under Act of* 1880, *Chapter* 122, *to each homestead or building association, for its mortgages on real or leasehold property, and the amount of non-taxable securities held by each corporation taxed solely on its assets; and the State Tax on the balance of its shares of stock or assets after deducting its real property and credits as aforesaid.*

NAME OF CORPORATION.	Aggregate Value of Shares of Stock.	Assessed Value of Real Property.	Amount of Credits Allowed for Investments paying taxes.	Mortgages held by Homestead or Building Associations, and non-taxable securities held by corporations taxed solely on their assets.	Amount of State Taxes due on Shares of Stock and Assets.

REPORT OF THE

State Tax Commissioner,

OF MARYLAND,

—TO THE—

GENERAL ASSEMBLY,

AT THE JANUARY SESSION, 1900.

SALISBURY, MD:
THE PENINSULA PUBLISHING CO.
1900.

HARVARD COLLEGE LIBRARY
RECEIVED THROUGH THE
GRADUATE SCHOOL OF
BUSINESS ADMINISTRATION
1934

REPORT OF THE

STATE TAX COMMISSIONER,

FOR THE YEAR 1899.

STATE OF MARYLAND.

TREASURY DEPARTMENT,

Office of the State Tax Commissioner;

ANNAPOLIS, *January 18, 1900.*

To the General Assembly of Maryland:

Chapter 178 of the Acts of 1878 created the office of State Tax Commissioner and imposes upon him the duty of reporting to the General Assembly at each regular session thereof the amount of basis of assessment for State purposes in the several Counties and the City of Baltimore, with his suggestions in regard to the same. In compliance with that provision, it has been the custom of my predecessors to make a full report of the accomplishments of the office, together with the basis of assessment as required by law. These reports contain much valuable information to those who are interested in the subject of taxation and it is proper that the same methods of reporting to the General Assembly should be followed, that all the information contained in this office from the creation thereof may be easily accessible to the Legislature. I shall endeavor, therefore, to follow the form adopted by my predecessors, and respectfully submit the following for your consideration.

STATE TAX ASSESSED UPON CORPORATIONS.

The total amount of State tax upon corporations derived from all sources for the year 1899, under the jurisdiction of this office, after deducting the amount by which the assessment of

the Tax Commissioner was reduced by the Comptroller and Treasurer, sitting as the Board of Appeals, amounts to the sum of $521,242.82 as compared with the sum of $410,997.39 in the year 1897. The importance of this Department can readily be seen when we look at the report of the Tax Commissioner to the session of 1880 and see that the amount realized from taxes upon corporations in that report was $166,291.93. All of this will appear by reference to Table A on page 3 of this report, which sets forth in detail the amount realized from the various sources under the jurisdiction of this office.

TABLE B

This table shows in detail the aggregate value of the shares of capital stock of each corporation as assessed by the State Tax Commissioner for the year 1899; the assessed value of its real property; the amount of credits allowed for tax-paying investments of part of its capital under Article 8, Section 142 of the Code of Public General Laws; the amount of credits allowed under the act of 1880, Chapter 122 of each homestead or Building Association for its mortgages on real or leasehold property, and the amount of non taxable securities held by each corporation taxed solely upon its assets, and the State tax on the balance of its shares of stock, after deducting its real property and credits as aforesaid. You will find the aggregate is $137,500.47, as compared with $92,406.74 for the year 1897.

TABLE C.

This table consists of a detailed statement of the deposits in the several Savings Banks and Institutions for Saving on the first day of January 1899, as reported to the State Tax Commissioner; the amount of franchise tax accrued to the State of Maryland; the amount of franchise tax accrued to the several localities where such banks and institutions are respectively situate; and the assessed value of real property held by each as certified to the State Tax Commissioner. The amount of franchise tax to the State of Maryland is $35,087.32, as compared with the sum of $32,057.47 for the year 1897.

TABLE D.

This table will be found beginning upon page 74 and continuing to page 77, inclusive, and has been prepared with

much care, to acquaint the Legislature with the assessed value of real and personal property in the several counties and Baltimore City for the years 1896, 1897, 1898 and 1899, together with the net assessment cf the stock of corporations in the various several localities of the State.

There seems to be in no county in the State a system of keeping separately the assessment upon real and personal property. It was therefore very difficult to obtain this information, as it was necessary to go over each and every account and separate the personalty from the realty. I would suggest in this connection that the General Assembly enact at this session some law that will compel the keeping of separate accounts for real and personal property.

I would call the attention of the Legislature to the fact that upon the books it appears that there is only $202,126.094.31 of personal property in the State of Maryland in the year 1899, upon which taxes were levied, excluding the $58,-809,145.54 net stock assessment of corporations. This fact will appear to you as demonstrating the enormous quantity of personal property, which under the law is subject to taxation, escaping altogether the burden. The remedy attempted by the Act of 1896 to establish a uniform rate of 30 cents for a certain class of securities, seems to have only increased the assessable basis in Baltimore City and that at the expense of the various counties in the State. I would therefore suggest a repeal of that discrimination, as I am convinced that it has not materially increased the basis of assessment, while it has decreased the revenue of the several localities.

TABLE E APPEALS.

In this table you will find in detail the several appeals taken by corporations in the year 1899 from the assessment of the State Tax Commissioner, and the action taken on the same by the Comptroller and Treasurer. I would suggest that a change in the law relating to appeals be made so as to enable the County or City in which the corporation is located to appeal from the assessment of the State Tax Commissioner after the valuation has been returned to them, in the same way that the corporation is allowed to take advantage of any error made against it by the State Tax Commissioner. It may frequently

happen that the special locality where the corporation is situate has information that does not come to the hands of the Tax Commissioner, that would show that the assessment placed upon the stock of the corporation by the Tax Commissioner is not sufficiently high, in which case they should have some method of correcting the same, as the Tax Commissioner's jurisdiction over the subject matter seems to be exhausted when he certifies to the Comptroller the valuation made by him.

TABLE F.

This table shows the names of corporations which have filed certificates of incorporation in the office of the State Tax Commissioner, with the amount of capital stock each corporation is authorized to issue and the aggregate amount of bonus paid to the Treasurer for the fiscal year ending September 30. 1899. It will be noticed that the amount of bonus for the year 1899 amounts to $42,884.01 as against the sum of $3,110.23 for the year 1897.

TABLE G.

This table shows the taxable value of distilled spirits as determined by the State Tax Commissioner, together with the names of the corporations and persons to whom the sum is chargeable, as returned to the Appeal Tax Court of Baltimore City and the County Commisssoners of the several counties for the year 1899. Since the law under which this tax is collected has been declared unconstitutional, I would suggest that the defect be remedied by giving a right of appeal as in other cases before the Tax Commissioner.

TABLE H.

This table shows the number and net value of shares of stock of banks and other corporations, owned by the State of Maryland and the several Counties and municipal corporations, as reported to the State Tax Commissioner for the year 1899, and deducted from such banks and other corporations as exempt from taxation under the laws of this State.

TABLE I.

This table shows the tax rate in the several Counties of the State, the City of Baltimore and the City of Baltimore Annex for County and City taxation.

TABLE K.

In this table will be found a detailed statement of the Gross Receipts of the several corporations therein named, which have made reports to the State Tax Commissioner, and the amount of tax levied thereon for State purposes for the year 1899, at the rate of three-fourths of one per centum, as provided by the Acts of 1896, Chapter 120.

TABLE L.

This table shows the Gross Receipts of the several corporations therein named, which have made report to the State Tax Commissioner, and the amount of tax levied thereon for State purposes for 1899, at the rate of one per centum as provided by the Acts of 1896, Chapter 120.

TABLE M.

This table shows the Gross Receipts of the several corporations therein named, which have made reports to the State Tax Commissioner, and the amount levied thereon for State purposes for 1899, at the rate of one and one-half per centum, as provided by the Acts of 1896, Chapter 120.

TABLE N.

This table shows the Gross receipts of the several corporations therein named, which have made reports to the State Tax Commissioner, and the amount of tax levied thereon for State purposes for the year 1899, at the rate of two per centum, as provided by the Acts of 1896, Chapter 120.

TABLE O.

This table shows the Gross Receipts of the several railroad companies named therein, for the year ended January 31, 1899, and the amount levied thereon for State purposes, as provided by the Acts of 1896, Chapter 120, and the Acts of 1878, Chapter 178.

SUGGESTIONS.

Section 87 of Article 81, of the Code of Public General Laws provides as follows:

"The President or other proper officer of any incorporated institution or company of this State which shall have issued any bonds, certificates or evidences of debt, bearing interest, shall, on or before the first

REPORT OF THE

State Tax Commissioner,

OF MARYLAND.

—TO THE—

GENERAL ASSEMBLY,

REPORT OF THE

STATE TAX COMMISSIONER,

FOR THE YEAR 1901.

STATE OF MARYLAND.

TREASURY DEPARTMENT,

Office of the State Tax Commissioner;

ANNAPOLIS, *January 1st, 1902.*

To the General Assembly of Maryland:

Chapter 178 of the Acts of 1878, creating the office of State Tax Commissioner and defining his duty, imposes upon him the duty of reporting to the General Assembly at each regular session, the basis of assessment for State purposes in the several counties and the City of Baltimore, with his suggestions in regard to the same. In complying with that provision, it has been the uniform custom of this office to make a full and detailed statement of all of its affairs and all matters pertaining to the office. The purpose of this full report is to acquaint the General Assembly with the accomplishments of the office of the State Tax Commissioner and also to put them in possession of all the information, touching the affairs of taxation, that is possible for the Tax Commissioner to ascertain.

The Tax Commissioner would direct the attention of the General Assembly to "Table A," which epitomizes the whole list of tables and gives their result. By looking at this, one can readily see what has been done by this office in a general way. This Table, in speaking of "Table N," should read $54,801.38 instead of $51,619.79. The total amount of State taxes received through the instrumentality of this office should read $529,254.00 in the place of $526,072.41.

It might perhaps be wise to speak specially of "Table D," which contains the detailed statement of the assessable value of property in this State and also, of its incompleted condition. There seems to be in no county of the State, a system of keeping separate the assessment upon real and personal property. It was, therefore, very difficult to obtain the information desired for the compilation of this table. Many of the clerks to the County Commissioners refused to furnish it, except at a large and unreasonable charge. The Legislature should pass some law compelling every county and the City of Baltimore to keep separate books for the assessment of real and personal property. The many advantages of this system are apparent to anyone. It will facilitate greatly the payment of taxes in case of the transfer of real property, and also in the case of ministerial officers selling either real estate or personalty, as they may more readily ascertain what taxes they are charged with. Perhaps, though, the greatest advantage would be to enable the Legislature to discover the taxable value of property in this State in the separate forms in which it exists. It will be noticed by the table, that much of the personalty must necessarily escape taxation, judging from the comparitively small amount that finds its way to the assessment books.

In this connection, I would call the attention of the Legislature to the repeal of section 192 of Art. 81 of the Code as enacted by Chapter 120 of the Acts of 1896, by Chapter 275 of the Acts of 1898 and of 1900 and the substitution in these latter Acts of a different method of listing personalty. This would seem to be a good opportunity to put into effect a law providing for separate accounts. The Act of 1896 contemplated the listing of personalty under the supervision of the Tax Commissioner, but as that Act has been repealed, together with the appropriation for the expenses incident thereto, the Tax Commissioner does not think that the listing provided for 1902 is within the purview of his duties.

In the report of the Tax Commissioner to the Legislature of 1900, attention was called to the disregard by corporations of section 87 of Art. 81 of the Code of Public General Laws, which provided for the return by a corporation to the Comptroller for the purpose of taxation of their issue of bonds, certificates or other evidences of debt. I would like to refer this

Legislature to the last report of the Tax Commissioner upon this subject, and suggest that it would be wise to follow the course indicated in that report, touching this matter.

The law should be so amended, that a certain day should be fixed as of which all corporations should make report to the Tax Commissioner; and the Tax Commissioner should receive the reports of all corporations by another given day. For example all corporations should make report as of the first day of January and should file with the Tax Commissioner the said report on or before the 15th day of February following. This would greatly facilitate the work of the office and would relieve the Tax Commissioner of all question as to what corporations should be taxed as of that particular year. And in this connection, it would be well to compel the corporations to report to the Tax Commissioner a full and detailed list of their stockholders and the places of their residence, so that the Tax Commissioner, at the time of certifying the assessment to the counties and the City of Baltimore could certify the list of stockholders in the corporation, together with the assessment of the stock, that the local jurisdictions might make a legal levy upon the said assessment.

A difficulty arises in the case of corporations holding bonds of other corporations, and mortgages and the stock of the State. The policy of the State seems to be to fix a different rate of taxation upon bonds and mortgages from that upon other classes of property, and in order to carry out the provision, in the spirit of the law touching the rate of taxation upon these two classes of property, it will be necessary to so amend the law as to allow the corporations holding bonds and mortgages, to pay the tax upon the same direct, and to receive credit for the amount upon which the tax is paid, as well as to allow credit for State stock, which is exempt from taxation in the hand of an individual, but which under the present system must indirectly be paid upon, when held by corporations. When the Tax Commissioner arrives at a net valuation of the shares of stock, the effect of the law as it now stands, is to make corporations in the City of Baltimore practically pay 2 per cent. upon these classes of investment.

A law should be passed providing for an annual franchise tax upon all corporations (except such as pay a gross receipt

tax) based upon their capital stock, their issue of bonds, certificates or other evidences of debt, of $5.00 when the capitalization, as aforesaid, does not exceed $50.000 and of $10 when such capitalization exceeds $50,000 and does not exceed $200,000, and of $25 when such capitalization exceeds $200,000, and does not exceed $500,000, and of $50 when such capitalization exceeds $500,000 and does not exceed $1,000,000 and the further sum of $25 per annum per $1,000,000 or any part thereof, in excess of $1,000,000. By this means, the revenues of the State would be greatly increased.

When we compare our own laws, creating governing and taxing domestic corporations with the laws of some of our sister states, it become apparent that the Legislature must take action, looking towards an extension of the rights and an enlargement of the powers of domestic corporations, or pursue what seems to be the wiser plan of curtailing the rights and privileges of foreign corporations doing business in this State. A very familiar fraud upon our corporation laws, is that citizens of our own State go into other jurisdictions and form themselves into a corporation to carry on an enterprise exclusively in this State. In this way, by paying the yearly stipulate sum to the State incorporating them, they get all the privileges and advantages domestic corporations do, including some that our own State has thought unwise to confer. At the same time, they avoid payment here of the various charges and taxes which this state has thought proper to lay upon them. If this state of affairs continues, soon there will be left to us only those corporations to whom has been granted the right of condemnation of which they may perchance sometime wish to avail themselves. Our citizens will be left to the mercy of corporations of limited responsibilities and unlimited powers. One of the most pitiable spectacles of the present day is the unseemly rivalry of several of our sister states for this so-called class of business, seemingly inspired by an unaccountable lust of profit and an unreasonable disregard of all safe and sound economic principles.

There may be suggested a number of ways in which this evil may be remedied, if the Legislature should decide that it would be wise to protect our people and the State from this form of corporate brigandage. The most effective, seems to be

by means of taxation. All local judisdictions in the State should be compelled to assess the real and personal properiy of foreign corporations located in this State within their jurisdiction for local and State purposes. All foreign corporations, doing business in this State, should be made to report to the State Tax Commissioner and have their stock assessed in the same way and to the same extent, that domestic corporations report and are assessed. In addition, all foreign corporations should pay for the privilege of doing business in this State, annually an amount equal to the annual franchise tax, and paid in the same way that has been suggested should be paid by domestic corporations. In addition to the above, it would be well to make all stockholders of such foreign corporations, personally responsible for all debts contracts in this State during the time they are stockholders, treating them in this particular as though they were general partnerships. Of course what has been said, should not be taken as applying to Fire and Life Insurance companies, nor to institutions organized for the purpose of lending money. It might be suggested further, that no foreign corporations failing to comply with all the conditions and provisions before mentioned, should be allowed the use of the Courts for the purpose of collecting debts contracted in this State.

It is also suggested that the borrowing capacity of all corporations, whether foreign, doing business in this State, or domestic, should be in some way limited. It seems wrong to allow to such a large proportion of corporate capitalization to be represented by bonds.

It seems to this office that it would be wise for the Legislature to create a Board of Commissioners, whose duties would include the making of rates of charges for railroad and other transportation companies, street railways, telegraph and telephone companies and electric and gas lighting companies, as well as to have conferred upon them the power to regulate the construction and operation of all the aforesaid corporations. Many states have such Boards and their value has been fully demonstrated. They are no longer experiments.

It would, perhaps, be well to include among the powers of the said Board, the authority to equalize the assessment of property, real and personal, throughout the State. While the

State tax rate is the same throughout the State, many of the counties pay much less than their proportion of State taxes, by reason of their very low assessment and frequently, in the same jurisdiction, you may find a great variety and inequality in assessments, which should be remedied, and the power to do so vested somewhere, whether in the Board of Commissioners suggested, or in some other Board, created expressly for this purpose. Control of this nature by a competent Board would be found very useful and profitable, both by the State and the citizens of our commonwealth.

No corporation, domestic or foreign, should be allowed to do business in this State until its capital stock is fully paid up in money or its equivalent.

There should be an easier and much more expeditious way provided for the dissolution of corporations. The certificate of the Attorney General, that the corporation has ceased to do business, filed with the Tax Commissioner, should be enough to relieve the corporation from further taxation, and the corporation, applying for and receiving such certificate should not be allowed to sue for a debt due it after the date of the said certificate, and the Attorney General, before issuing said certificate, should be satisfied that the corporation owes no debts or as an alternative, holds nothing of value in the way of property, patent rights and other things.

Respectfully submitted,

ROBERT P. GRAHAM,

STATE TAX COMMISSIONER.

APPENDIX

TABLE A.

Showing the whole amount of State Tax on corporations for the year 1901, amount of State Tax on distilled spirits and bonus paid by corporations.

CORPORATIONS.	Amounts.	Aggregates.
State Tax on real property belonging to Banks in Baltimore City	$ 3,867 40	
State Tax on real property belonging to Banks in the Counties	902 40	
State tax on real property belonging to Insurance Companies in Baltimore City	1,734 16	
State tax on real property belonging to Savings Institutions	1,915 40	
State tax on real property belonging to Miscellaneous corporations	55,221 15	63,640 51
State tax on net value of shares of capital stocks of Banks in Baltimore City	19,722 94	
State tax on net value of shares of capital stocks of Banks in the Counties	7,867 45	
State tax on net value of shares of Insurance Companies in Baltimore City	2,800 31	
State tax on net value of shares of stock of miscellaneous corporations	75,306 18	
Franchise tax on deposit of Savings Institutions	38,608 75	144,305 61
Bonus paid by corporations, Chap. 114, 1894, Table "F"	11,494 00	
State tax on distilled spirits as certified to the Appeal Tax Court of Baltimore City, and the County Commissioners of the several Counties under Chap. 704, Laws of 1892, and Chap. 320, Acts of 1900. See Table G	2,699 01	
State tax on Gross receipts at ¼ of one per centum, Chap. 120, Acts of 1896. See Table "K."	5,870 37	
State tax on gross receipts at one per centum, Chap. 120 of 1896. See Table "L."	1,223 84	
State tax on gross receipts at 1½ per centum, Chapter 120 of 1896. See Table "M"	11,524 57	
State tax on gross receipts at 2 per centum, Chap. 120 of 1896. See Table "N."	51,619 79	
State tax on gross receipts of Railroads, Chap. 120 of 1896 and Chap. 159 of 1878. See Table O.	235,312 99	319,744 57
Total amount of State tax on corporations, etc.		527,690 69
Less State tax on amount reduced on Appeal. See Table "E"		1,618 28
Total amount of State tax on Corporations after reduction mentioned		526,072 41

NOTE.—The shares of stock in the several Banks and other corporations belonging to the State, Counties and Municipal Corporations, mentioned in Table H amounting to $168,129.64, being exempt from taxation by law, are not computed in the above table.

TABLE B.

Showing in detail the Aggregate Value of the Shares of Capital Stock of each Corporation, as assessed by the State Tax Commissioner for the year 1901, the assessed value of its real property, under Chapter 120, Sec. 141, Act of 1896; the amount of credits allowed for tax-paying investments of part of its Capital under Article 81, Sec. 142, Code of Public General Laws, the amount of credits allowed under Act of 1880, Chapter 122, to each homestead or building association, for its mortgages on real or leasehold property, and the amount of non-taxable securities held by each corporation taxed solely on its assets; and the State Tax on the balance of its shares of stock or assets after deducting its real property and credits as aforesaid.

NAME OF CORPORATION.	Aggregate Value of Shares of Stock	Assessed Value of Real Property.	Amount of Credits Allowed for Investments Paying Taxes.	Mortgages held by Homestead or Building Associations, and non-taxable securities held by corporations taxed solely on their assets.	Amount of State Taxes due on Shares of Stock and assets.

REPORT OF THE

STATE TAX COMMISSIONER,

FOR THE YEAR 1903.

STATE OF MARYLAND.

TREASURY DEPARTMENT,

Office of the State Tax Commissioner;

ANNAPOLIS, *January 1st*, 1904.

To the General Assembly of Maryland:

Under Chapter 178 of the Acts of 1878, creating this office, the following report is made to the General Assembly: As has been the custom, this report covers all matters connected with this office.

An examination of the tables, fully set out, will give information of interest upon the subject of taxation.

"Table A" gives in a condensed form the results of all the tables, and shows the total amount of State taxes derived from all sources for the year 1903, through the operation of this office, to be $634,388.18 as compared with the sum $529,254 in the year 1901, an increase of $105,634.18.

Heretofore many corporations were carried on the books in this office without having filed reports. Upon examination they were found to have gone out of existence. I have included only such corporations as have made report to this office during the past year. It will be observed that a large number of corporations have been assessed for the first time, and for more than one year, the same having escaped taxation in the previous years.

"Table B"—This table shows in detail the assessment of the shares of capital stock of all corporations as made by the State Tax Commissioner the assessed value of their real property as

certified to him from the various Counties and the City of Baltimore, the amount of investments by such corporations of this State in the shares of stock of other corporations, or other investments, on which the State taxes are paid; and the net value of such shares of stock after deducting all credits allowed by law.

There are not found in Schedule B many corporations which were formerly included, their Maryland charters having been abandoned and charters obtained elsewhere, notably in New Jersey. My predecessor, the Hon. Robert P. Graham, has in a very forcible and convincing way in his last report to the General Assembly, called attention to the fact, which I wish to emphasize, that citizens of Maryland go to other jurisdictions to obtain charters under which they carry on business, sometimes exclusively in this State. This is manifestly unjust to domestic corporations. Something should be done to correct this injustice. As a step in this direction, our present system of taxing such corporations should be changed. The mode of taxing "Gross Receipts" on business done in Maryland could be utilized. I recommend that all foreign corporations, excepting Fire and Life Insurance Companies, be required to make report to this office, as must be done by our domestic corporations, and be taxed on the business done in this State. These foreign corporations should bear an equal share of the burden of taxation, in return for the privileges enjoyed.

"Table C"—Covering the State tax on deposits of Savings Banks, shows, among other things, the gratifying fact that there has been an increase of $5,432.87 coming to the State from this source alone, the larger part of this increase has been brought about by compelling a compliance with the law requiring the payment by said banks of the taxes due, not only on their capital stock, but on their deposits as well. Baltimore City and the various Counties have shared in the benefits accruing from the enforcement of this law.

"Table D"—Shows an increase in the assessed value of all the real and personal propery in the State, for the year 1903, compared with that of 1901, of $35,515,080. In my opinion the basis for taxation could be largely increased by requiring a quadrennial listing of all personal property.

I also fail to see why there should be a difference between the rate charged on gross receipts of Electric Light and Gas Companies, as is now the case, namely, 3-4 of one per centum on Gross Re-

ceipts of Electric Light Companies, and 1 1-2 per centum on gross receipts of Gas Companies, and recommend placing them on the same footing, at such rate as may be thought best.

There is much force in the suggestion coming from many, that all financial institutions pay a tax on their gross receipts only, in lieu of all other taxes.

We wish to acknowledge the valuable assistance so freely and courteously extended at all times by the Appeal Tax Court of Baltimore City, which is in possession of such facts and information concerning corporations in their jurisdiction, not otherwise obtainable by us. This same aid could and should be extended by the County Commissioners of the various Counties.

I desire to call your attention to this fact, which the tables do not show, namely, that of the increased revenues of the State for the year 1903, the sum of at least ($75,000.00) *Seventy-five Thousand Dollars,* has been added, through the special efforts of this office. In doing this we have not imposed any additional taxes on any corporations of the State that had previously been assessed and paying taxes, except in a few instances, warranted by the special facts in each case; but believing that numerous corporations in existence for years were not assessed by this office, and had not complied with the requirements of the Law in filing a copy of their charters and making their reports; a systematic and diligent inquiry was begun in all the Counties and the city of Baltimore, extending back nearly ten years, resulting in adding many millions of dollars to the taxable basis. It will be seen that this newly discovered property was made to pay its just share of the expenses of the State.

I hope the importance of this great increase in the revenues of the State, which otherwise would have escaped attention, because not pointed out specifically in any of the Tables submitted, will justify my pleasure and gratification in speaking at length of the same, and be my excuse in the eyes of those who read, or are interested in this report.

Respectfully Submitted,
BUCHANAN SCHLEY,
State Tax Commissioner.

APPENDIX

TABLE A.

Showing the whole amount of State Tax on corporations for the year 1903, amount of State Tax on distilled spirits and bonus tax of 1-8 of 1 per cent. on the authorized Capital Stock of Corporation.

CORPORATIONS	Amounts	Aggregate
State Tax on real property belonging to Banks in Baltimore City	$ 4,277 67	
State Tax on real property belonging to Banks in the Counties	964 18	
State Tax on real property belonging to Insurance Companies	926 62	
State Tax on real property belonging to Savings Banks	2,061 99	
State Tax on real property belonging to Miscellaneous Corporations	72,427 54	80,658 00
State Tax on net value of shares of capital stock of Banks of Baltimore City	20,773 49	
State Tax on net value of shares of capital stock of Banks in the Counties	9,450 91	
State Tax on the net value of shares of Insurance Companies in Baltimore City	3,845 56	
State Tax on the net value of shares of stock of Miscellaneous Corporations	77,740 56	
Franchise Tax on deposits of Savings Institutions	44,041 61	155,852 13
Bonus Tax of Corporations Chapter 114, 1894 Table "F"	16,936 00	
State Tax on Distilled Spirits under Chapter 704, Acts of 1892 and Chap 320 Acts of 1900 Table G	4,120 33	
State Tax on Gross Receipts at ¾ of 1 per centum Chap. 120, Acts of 1896, Table "K"	8,115 62	
State Tax on Gross Receipts at 1 per centum Chap. 120 of Acts of 1896, Table "L"	1,223 84	
State Tax on Gross Receipts at 1½ per centum Chap. 120 of Acts of 1896 Table "M"	12,296 46	
State Tax on Gross Receipts at 2 per centum Chap. 120 Acts of 1896 Table "N"	67,301 78	
State Tax on Gross Receipts of Railroads Chap. 120 of Acts of 1896 and Chap. 159 of 1878 Table "O"	288,484 35	398,478 38
To amount of State Tax on corporations, etc.		634,988 51
Less State Tax on amount reduced on appeal, see Table "E"		100 33
Total amount of State Tax on corporations after reductions mentioned		634,888 18

TABLE B.

Showing in detail the aggregate value of the Shares of Capital Stock of each Corporation, as assessed by the State Tax Commissioner for the year 1903, *the assessed value of its real property, under Chapter* 120, *Sec.* 141, *Act of* 1896; *the amount of credits allowed for tax-paying investments of part of its Capital under Article* 81, *Sec.* 142, *Code of Public General Laws; the amount of Credits allowed under Act of* 1880, *Chapter* 122, *to each homestead or building association, for its mortgages on real or leasehold property, and the amount of non-taxable securities held by each corporation taxed solely on its assets; and the State Tax on the balance of its shares of stock or assets after deducting its real property and credits as aforesaid.*

REPORT OF THE

STATE TAX COMMISSIONER,

FOR THE YEAR 1905.

STATE OF MARYLAND,

TREASURY DEPARTMENT.

Office of the State Tax Commissioner;

ANNAPOLIS, January 1st, 1906.

To the General Assembly of Maryland:

Under Chapter 178 of the Acts of 1878, creating this office, the following report is made to the General Assembly: As has been the custom, this report covers all matters connected with this office.

An examination of the tables, fully set out, will give information of interest upon the subject of taxation.

"Table A," gives in a condensed form the results of all the tables, and shows the total amount of State taxes derived from all sources for the year 1905, through the operation of this office, to be $842,802.07 as compared with the sum of $634,888.18 in the year 1903, an increase of $207,913.89.

It will be observed that quite a large number of corporations have been assessed for the first time and for a number of years, the same having escaped State taxation in the previous years. In other words, the work previously done along these lines, as shown in my Report of 1903, has been carried on with much success.

"Table B." This table shows in detail the assessment of the shares of capital stock of all corporations as made by the State

Tax Commissioner, the assessed value of their real property certified to him from the various Counties and the City of B more, the amount of investments by such corporations, or other vestments, on which the State taxes are paid; and the net valu such shares of stock deducting all credits allowed by Law.

The disastrous fire which swept Baltimore in February, 1 destroyed a vast amount of property belonging to individuals corporations; that part of it owned by corporations, real and sonal, has largely reduced the basis of assessments for purpose State taxation by at least Four Millions of Dollars; and as a sequence the taxes derived therefrom.

Serious as this loss was, it has been more than made up the steady growth of corporations liable to taxation.

"Table C"—Covering the State tax on deposits of Sav Banks, shows, among other things, the gratifying fact that t has been an increase of $4,954.62 coming to the State from source alone, the larger part of this increase has been brou about by compelling a compliance with the law requiring the ment by said Banks of the taxes due, not only on their cap stock, but on their deposits as well. Baltimore City and the ious counties have shared in the benefits accruing from the enfo ment of this law.

"Table D"—Shows an increase in the assessed value of all real and personal property in the State, for the year 1905, com ed with that of 1903, of $72,016,855.00. In this connection I state, what may be referred to by the Comptroller, that some the Savings Banks of the State have resisted the payment of tax on their deposits as of January 1st, 1904, and 1905, and at my suggestion, suit has been brought against said Banks test the validity of the Act of 1904, Chapter 212, exempting cer Savings Banks having a capital stock of $20.000, or over, sub to taxation, under the laws for the payment of thi. Franchise T if the said law is declared valid by the Courts, I recommend repeal of the same, because it might entail great loss to the St

In my former report I called attention to the fact that I fa to see why there should be any difference between the rates char on gross receipts of Electric Light and Gas Companies, as is the case, namely 3-4 of one per cent. on gross receipts of Elec Light Companies, and 1 1-2 per cent. on gross receipts of

Companies. I entertain the same views now as then, and again recommend placing them on the same footing, at such rates as may be thought best.

With such knowledge as this Department has, I am of the opinion that the gross receipt Tax on Express or Transportation Companies, should be reduced, as this Tax added to their other taxes seems burdensome, and such a reduction would likely result in fuller reports of their gross receipts, thus facilitating adjustments without delay and dispute.

The leading fact in this Report, and the most gratifying to the taxpayers of the State is, that the revenue derived from Gross Receipts of corporations, all of which goes to the State, shows an increase over the Report to the General Assembly of 1904, of $138,403.48, which with the increase of $69,510.08, from Miscellaneous Corporations, heretofore referred to in this Report, makes a total gain in revenue of $207,913.89, to the credit of this Department.

This large increase of $138,403.48, has been brought about by requiring the corporations to make such reports as would show in detail their Gross Receipts, as distinguished from their net receipts, the tax being upon the Gross Receipts.

It is but fair to say that part of the increase of $69,510.08 from Miscellaneous Corporations, above referred to, is the result of the difference between the State Tax for 1903 of 17 cents, on the hundred dollars, and that of 1905 of 23 1-2 cents, on the hundred dollars, but this does not in any way account for the sum of $138,403.48, which is a net increase of revenue to the State, not affected by the difference in the rate of State Taxes.

There has been much discussion in the last few years of our Corporation Laws, and of the necessity for, and wisdom of, changes in the manner of their formation and taxation, and a Bill for that purpose was introduced in the Senate, March 25, 1904, by Senator Thos. H. Robinson, Chairman of the Finance Committee of the Senate. This Bill was the result of the careful and intelligent work of a special Commission, consisting of the following gentlemen: George R. Willis, Stevenson A. Williams and George Arthur Brown, appointed by Governor John Walter Smith, by virtue of an Act of Assembly.

Its importance was such, that the time left before the close of the Session was too short for a proper examination of its provis-

ions, and no further action was taken. Doubtless this Bill wi
considered by you, and such changes as may be deemed wise
expedient will be made. It is a most important measure to
welfare of the State, and will receive your best thought.

Respectfully submitted,

BUCHANAN SCHLEY,

State Tax Commissione

REPORT OF TH

TAX COMM

THE YEARS 19

AND,

' *the State Tax Con*

ANNAPOL

bly of Maryland:

8 of the Acts of 187

ıde to the General .

covers all matters c

f the tables, fully se

he subject of taxati

eport has only cov

er to cover the two in

way all the work dc

ıtion.

" gives in a conde

year 1906, and sh

ɔm all sources for th

ɔe, $972,713.51, as c

ear 1905, an increas

" gives likewise in

showing the total

s for the year 190

compared with the sum of $972,713.51, in the year 1906, an increase of $7,741.56.

The reason why the increase for the year 1907, is only $7,741.-56, as above, when the increase for the year 1906, is $129,911.42, is found in the fact that the rate of taxation for state purposes was reduced from 23 1-2 cents on each one hundred dollars, of assessable property in 1906, to 16 cents in 1907, but for this reduction in the rate of taxation for the year 1907, the increase would have been about $100,000 for the year 1907.

In this connection it is proper to say that diligence has been exercised in securing all reports from corporations, thus securing to the State, the taxes due from them.

"Table B, Nos. 1-2," show in detail the assessments of the shares of capital stock of all corporations, as made by the State Tax Commissioner, the assessed value of their real property as certified to him from the various counties and the City of Baltimore, the amount of investments by such Corporations, or other investments, on which the State taxes are paid; and the net value of such shares of stock deducting all credits allowed by Law.

"Table C, Nos. 1-2," covering the StateTax on deposits of Saving's Banks, show an increase of $3,958.57, with four yet to be heard from, whose returns ought to add materially to the above amount.

"Table D, Nos. 1-2," show an increase in the assessed value of all the real and personal property in the State, for the years 1906 and 1907, as compared with that of 1905, of $104,056,029. The part of this report most gratifying to tax payers of the State is, the large increase of revenue from Gross Receipts from corporations, all of which goes to the State. This increase amounts to $204,072.00, as compared with the year 1905.

This increase is due in large part to Chapter 712 of the Acts of 1906, increasing the Tax on Gross Receipts of certain Corporations, materially adding to the revenue derived from this source.

In this connection your attention is called to the fact, that the

Court of Appeals of Maryland, has recently decided in the case of the State of Maryland vs. The Central Trust Company (of Baltimore) that certain items of gross receipts should be included in the reports filed in this office by certain corporations, upon which the gross receipts tax is to be calculated.

This decision is far-reaching and will add largely to the revenues of the State; it is safe to say that the increase will amount to at least $30,000.00 annually, and may go much beyond that sum.

This suit was brought at the instance of this Department, needless to add that the result is most gratifying.

An examination of the previous reports by me, since my appointment as State Tax Commissioner, in May 1902, shows in round figures, a gain by the State of $464,000.00, covering a period of five and one-half years, although the larger part of this increase is due to the growth in numbers and wealth of corporations in the State, a very considerable amount of it, possibly as much as $200,000.00 of the increase, is due to the methods and diligence used in the conduct of the office.

Respectfully submitted,

BUCHANAN SCHLEY,

State Tax Commissioner.

REPORT OF THE

STATE TAX COMMISSIONER

FOR THE YEARS 1908–1909

STATE OF MARYLAND,

TREASURY DEPARTMENT

Office of the State Tax Commissioner.

ANNAPOLIS, January 1st, 1910.

To the General Assembly of Maryland:

Under Chapter 178 of the Acts of 1878, creating this office, the following report is made to the General Assembly. As has been the custom, this report covers all matters connected with this office.

An examination of the tables, fully se' out, will give information of interest upon the subject of taxatio .

This report covers the two interveni g years since the last report, and all the work done by the de rtment in that period is given for your information.

Table "A No. 1" gives in a condensed form the results of the tables for 1908, and shows the total amount of State taxes derived from all sources for that year through the operation of the office, to be $985,214.35 as compared with the sum of $980,455.07 for the year 1907, an increase of $4,759.28.

The fact that the increase for the year 1908 was so small, is accounted for in two ways; first it being one of the years in which all trade and commerce were seriously affected by the panic, the

tax upon Gross Receipts from railroads and other corporations, notably the railroads, fell off seriously; second by reason of the changes in the law governing the payment of taxes on the Gross Receipts of Bonding and Trust companies, the revenue of the State from this source was materially reduced.

Table "A No. 2" gives likewise in a condensed form the results of the tables showing the total amount of State taxes derived from all saurces for the year 1909, to be $1,010,179.61 as compared with the sum of $985,214.35 in the year 1908, an increase of $24,965.26.

Table "C Nos. 1-2" covering the State Tax on deposits of Saving's Banks, show an increase of $1,516.43.

Since my last report to the General Assembly, a new Corporation Law has been passed, and went into effect June 1st, 1908.

Among its provisions was one requiring nearly all Corporations thereafter formed to file for record in this office, the certificate of incorporation, largely increasing the work of this Department.

Up to the time of this report about 1100 certificates have been filed and recorded, and the fees for recording said certificates amount to nearly $1700, an accurate record of which is kept in the office.

The exact figures are not given, for the reason that this report is necessarily prepared and put in the hands of the printer a few days before January 1st, 1910, at which time this report is made.

Table "B Nos 1-2" show in detail the assessments of the shares of capital stock of all corporations, as made by the State Tax Commissioner, the assessed value of their real property as certified to him from the various counties and the City of Baltimore, the amount of investments by such Corporations, or other investments, on which the State taxes are paid; and the net value of such shares of stock deducting all credits allowed by law.

Table "D Nos. 1-2" show an increase in the assessed value of all the real and personal property in the State, for the years 1908 and 1909, as compared with that of 1907, of $109,481,585.

Examining the previous reports by me, since my appointment as State Tax Commissioner, May 1902, they will show a gain by the State of $484,000.00, covering a period of seven and one-half years, the larger part of this increase is due to the growth in numbers and wealth of Corporations in the State, but a considerable amount of the increase, about $210,000.00, is due to the methods and diligence of the Office.

The increase for the last two years would have been very much larger but for the causes referred to above, namely, the effect of the panic upon the Gross Receipts of Railroads and other Corporations, causing a large shrinkage from that source, also by reason of the reduction in the payment of taxes on the Gross Receipts of Bonding and Trust Companies caused by changes in the Law governing the same.

Respectfully submitted,

BUCHANAN SCHLEY,

State Tax Commissioner.

APPENDIX

TABLE A, No. 1.

Showing the whole amount of State Tax on corporations for the year 1908, *amount of State Tax on distilled spirits and bonus tax of* 1-8 *of* 1 *per cent. on the authorized capital stock of corporations.*

REPORT OF THE

STATE TAX COMMISSIONER

FOR THE YEARS 1910-1911

STATE OF MARYLAND,

TREASURY DEPARTMENT

Office of the State Tax Commissioner.

ANNAPOLIS, January 1st, 1912.

To the General Assembly of Maryland:

Under Chapter 178 of the Acts of 1878, creating this office, the following report is made to the General Assembly. As has been the custom, this report covers all matters connected with this office.

An examination of the tables, fully set out, will give information of interest upon the subject of taxation.

This report covers the two intervening years since the last report, and all the work done by the department in that period is given for your information.

Table "A No. 1" gives in a condensed form the results of the tables for 1910 and shows the total amount of State taxes derived from all sources for that year through the operation of the office, to be $1,060,006.42 as compared with the sum of $985,214.35 for the year 1909, an increase of $74,792.07.

You will note that there is a very considerable increase for the year 1910 over that of 1909, namely $74,792.07, the rate of taxes

for these two years having been the same, the difference represents the increased business of the office for that year.

Table "A No. 2" gives likewise in a condensed form the results of the tables showing the total amount of State taxes derived from all sources for the year 1911 to be $1,245,675.89 as compared with the sum of $1,060,006.42 in the year 1910, an increase of $185,669.47.

The increase for the year 1911 over that of 1910 is $185,669.47 of which increased amount a large part is produced by the increased rate of State taxes, which was in 1910 16 cents on each $100, and for the year 1911 it was 22 cents on each $100.

Table "C Nos. 1-2" covering the State Tax on deposits of Savings Banks, show an increase of $5,444.64.

Up to the time of this report about 2500 certificates of incorporation have been filed and recorded in this office and the fees for recording said certificates amount to over $4300, an accurate record of which is kept in the office. This money is paid over quarterly to the Comptroller.

The exact figures are not given, for the reason that this report is necessarily prepared and put in the hands of the printer some time before January 1st, 1912, at which time this report is made.

Table "B Nos. 1-2" show in detail the assessments of the shares of capital stock of all corporations, as made by the State Tax Commissioner, the assessed value of their real property as certified to him from the various counties and the City of Baltimore, the amount of investments by such Corporations, or other investments, on which the State taxes are paid; and the net value of such shares of stock deducting all credits allowed by law.

Table "D Nos. 1-2" show an increase in the assessed value of all the real and personal property in the State, for the years 1910 and 1911, as compared with that of 1909, of $186,858,177.

Examining the previous reports by me, since my appointment as State Tax Commissioner, May 1902, they will show a gain by

the State of $744,000, covering a period of nine and one-half years, the larger part of this increase is due to the growth in numbers and wealth of corporations in the State, but a considerable amount of the increase is due to the methods and diligence of the office.

RE-VALUATION AND RE-ASSESSMENT.

By virtue of Chapter 300 of the Acts of The General Assembly of Maryland passed at the January Session of 1910, provision was made for the general re-valuation and re-assessment of property for purposes of taxation in all the Counties of the State except Somerset and Worcester, Baltimore City not being included; and it was further provided in said Act that the State Tax Commissioner should prepare printed instructions and forms for the proper guidance and direction of those appointed, for the purpose of carrying into effect the provisions of the Act. All this was done by the State Tax Commissioner and he submits the following Statement and Table showing the result of said work in the respective Counties where the work has been completed.

In Cecil, Garrett and Kent Counties the work has not been finished, although I am informed by the respective Boards of Control and Review that it soon will be, in answer to my repeated requests urging the promptest possible action. It will be seen by an examination of Table Re-Valuation and Re-Assessment, Page 1, that the total amount of Real Property re-valued and re-assessed under the Act amounts to Three Hundred and Eight Million, Three Hundred and Fifty-Four Thousand, Six Hundred and Ninety-Two Dollars ($308,354,692), and the total re-valuation and re-assessment of Personal Property amounts to One Hundred and Ten Million, Eighty-Nine Thousand, Seven Hundred and Forty Dollars, ($110,089,740.) Now, the assessment and valuation of Real Property in the same Counties, covered by this Act, amounted in 1896, the date of the last General Assessment, to One Hundred and Eighty-Four Million, Three Hundred and Eighty-Nine Thousand, Four Hundred and Fifty-Eight Dollars ($184,389,458), and the

assessment and valuation of Personal Property amounted to Fifty-Nine Million, Six Hundred and Fifty-Seven Thousand, and Forty-One Dollars ($59,657,041), thus showing a gain of One Hundred and Twenty-Three Million, Nine Hundred and Sixty-Five Thousand, Two Hundred and Thirty-Four Dollars ($123,965,234) in Real Property and of Fifty Million, Four Hundred and Thirty-Two Thousand, Six Hundred and Ninety-Nine Dollars ($50,432,699) in Personal Property, over and above the amounts for these respective classes of property in 1896, being a total increase of One Hundred and Seventy-Four Million, Three Hundred and Ninety-Seven Thousand, Nine Hundred and Thirty-Three Dollars $174,-397,933) in Real and Personal Property.

EXPENSES OF RE-ASSESSMENT.

For the purpose of carrying into effect the provisions of the Act under which this re-assessment of property has been made, the Legislature appropriated the sum of Ten Thousand Dollars ($10,-000) or as much thereof as might be necessary, and further provided that all the books, blanks and stationery necessary should be purchased from the lowest responsible bidder after due notice by advertisement, and to employ the clerical labor necessary for the due execution of the provisions of the Act.

It will be noted that the State Tax Commissioner does not receive any extra compensation for the work connected with this Re-assessment. After giving due notice by advertisement of what was required in the shape of books, blanks and stationery, I received a number of bids, ranging from Seven Thousand, Two Hundred and Eighty-Three Dollars and Sixty-Six Cents ($7,283.66) to Two Thousand, Five Hundred and Sixty-five Dollars and Eighty Cents ($2,565.80), for which latter sum the contract was awarded to C. H. Baughman & Son, of Frederick, Md., they being the lowest bidders. The bids were opened and read in the presence of the various bidders.

The clerical help necessary, running through many weeks and

continuing up to the time of making this report, cost of postage, transportation, necessary supervision, additional blanks and printing, amount to the sum of Six Thousand Dollars ($6,000) leaving a balance in the Treasury of Four Thousand Dollars ($4,000) out of the Ten Thousand Dollars ($10,000) appropriated. For every cent expended to carry out the provisions of the Act, there will be found a voucher on file in the office of the Comptroller of the State.

The State Tax Commissioner feels naturally gratified that so important a work, involving as it did a large amount of labor, has been accomplished for a sum well within the appropriation, and he wishes here to record his full appreciation of the valuable services of those who aided him in the large amount of important preliminary work required, before the Assessors could begin their duties, and for their continued zeal and efficient work up to the time of, and including the making of this report.

Respectfully submitted,

BUCHANAN SCHLEY,

State Tax Commissioner.
